

PANNELLI DI RIVESTIMENTO

PER PORTE D'INGRESSO DI DESIGN

SPECIFICHE

Quando il design si integra con la durabilità.

Studiati per chi, nella scelta del portoncino della propria casa, non intende rinunciare al design e alla durata nel tempo.

L'innovativo rivestimento in alluminio viene applicato esternamente al portoncino per proteggere in maniera ottimale da sole, vento e dagli agenti atmosferici. Il tutto senza necessità di manutenzione.

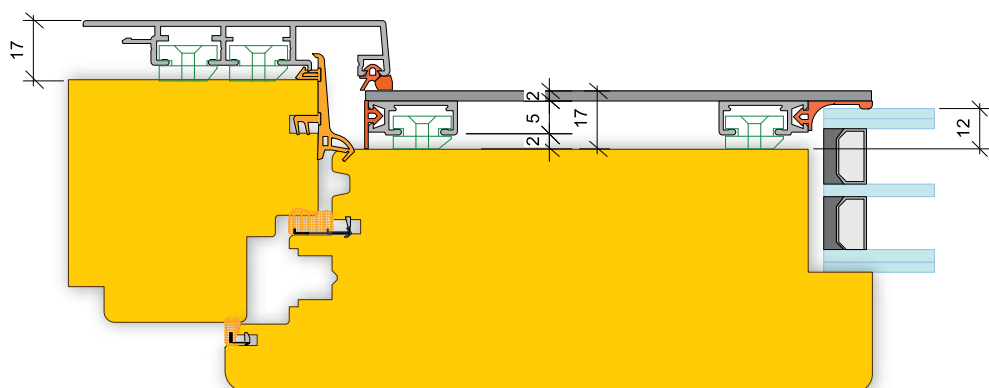

L'applicazione mediante clips garantisce l'areazione e la flessibilità, lasciando inalterata la stabilità del portoncino.

L'ampia gamma di finiture RAL e simil legno, unite a varie tipologie di incisioni/riporti decorativi rendono il vostro portoncino unico.
